Introduction

This directory was developed as a handy reference guide to simplify communications and to promote the transfer of technical expertise among OSCs. In addition to names and phone numbers of OSCs, the directory contains regional and headquarters addresses, facsimile and E-mail numbers; TAT, ERCS, ERNS, and preparedness contacts; and a telephone information hotline listing. The directory also contains a comprehensive "specialty area" index that can be a useful reference for contacting OSCs or others who have extensive experience in a particular response situation or specialized area.

To simplify the annual update of the directory, an OSC database has been developed. Regions may periodically make changes to their respective portions of the directory.

A computerized version of this directory is available on the OSWER Electronic Bulletin Board. Hard copy versions of the information contained on the Bulletin Board can be printed from in-house computers. In addition, information can be transferred from the Electronic Bulletin Board into in-house word processing systems and database software.

This computerized format increases the availability and utility of the directory. The Bulletin Board will make the directory available to a wider audience. **We strongly encourage users to leave comments on the Bulletin Board to alert us to additions or corrections, such as personnel and phone number changes.** Based on these comments, we will keep the directory current and eliminate the need for costly information gathering in the future.

After downloading the directory into word processing or database software, the directory can be searched using the word search capabilities of the software; the directory can be transferred into a "desk manager" database to take advantage of automatic dialing functions; and the directory can serve as a source database for other directories, mailing lists, and reports. Refer to the next page for information about accessing the Bulletin Board.

Special thanks are extended to the Regional offices for their support.

ACCESSING THE OSWER BULLETIN BOARD

To access the OSWER Bulletin Board, use Crosswalk (EPA's standard communications program) and set the following parameters:

Name:	OSWER BBS	
Number:	301-589-8366	(If you have problems completing an off-net FTS call to that area code, substitute 202).
Mode:	Call	
Data:	8	
Parity:	None	
Stop:	1	

Once you have accessed the Bulletin Board, join the OSC Conference by entering <J 8> and pressing the return key.

Telephone Information Services

Hotline Information Service	Emergency & Non-emergency
Environmental Protection Agency	
Superfund/RCRA Hotline	800-424-9346 202-382-3000
Information on regulations, disposal practices, transportation, and RQs.	
(For the hearing impaired.)	800-553-7672 202-475-9652
TSCA Hotline	202-554-1404
Information on risk for PCBs, asbestos, and CFCs.	
Department of Health & Human Services	
Center for Disease Control/ATSDR	404-452-4100
Contact: Kent Gray.	
Information on levels of protection, work practices, heat stress, employee reactions to chemicals, skin rashes, decontamination procedures.	

Hotline Information Service	Emergency & Non-emergency
National Institute for Occupational Safety & Health	513-841-4428
Contact: Jay Bainbridge.	
Site-specific risk assessments and hazards evaluations. Site vists arranged.	
CDC Center for Environmental Health	404-639-0615
Information on toxic effects of chemicals, risk assessment, medical diagnoses and treatment from staff of 150 toxicologists, epidemiologists, and physicians.	
National Library of Medicine	301-496-6193
Service for automated data systems (telephone modem and printer). Toxline, Online Toxicology information; Chemline, Chemical Dictionary; RTECS, NIOSH Registry of Toxic Effects of Chemical Substances.	
Department of Labor	
Technical Data Center	202-523-9700
General information on effects of selected substances, access to RTECS registry of toxic effects, NIOSH criteria documents and publications, and CIS documents (ILO/CIS microfiche).	
OSHA Docket Office	202-523-7894
Rulemaking, testimony, and hearing.	

Hotline Information Service	Emergency & Non-emergency
Department of Transportation - U.S. Coast Guard	
National Response Center Reporting of releases. Access to many information systems including: PIRS, HACS, CHRIS, OHM-TADS, SANSS, SKIM, and CAMEO.	800-424-8802 202-426-2675
National Response Center - MSIS Marine Safety Information System stores oil and hazardous materials release information that is reported to the U.S. Coast Guard.	800-424-8802 202-426-2675
National Response Center - HACS Hazard Assessment Control System contains information on hazard evaluation considering weather and geography.	800-424-8802 202-426-2675
National Response Center - CHRIS Chemical Hazard Response Information System provides information used as quick guidance for response.	800-424-8802 202-426-2675
National Response Center - OHM-TADS Oil and Hazardous Materials- Technical Assistance Data System provides information on toxicity, creativity, detection techniques, and chemical properties.	800-424-8802 202-426-2675
National Response Center - SANSS Structural and Nomenclature Search System identifies substances when incomplete information is available.	800-424-8802 202-426-2675

Hotline Information Service	Emergency & Non-emergency
National Response Center - SKIM	800-424-8802 202-426-2675
Pollution Equipment Inventory System provides location information for response equipment (primarily oil).	
Department of Treasury	
Bureau of Alcohol, Tobacco, and Firearms	800-424-9555 202-566-7777 202-789-3000
A 24-hour hotline for reporting the discovery of explosives. Staffed by explosive specialist and the contact for explosive ordinance (EOD) teams from the Department of Defense.	
CHEMTREC	
Chemical Manufacturers Association	800-424-9300 202-887-1255
Information on identity of chemical, transporter, and manufacturer. Assistance in contacting response teams. Contact point for private spill response (CHLOREP and PSTN). Basic response technique information.	
Occupational Health Services, Inc. Hazardline	
Information on chemical hazards through automated data system. Available to subscribers with telephone modem and printer. Material Safety Data Sheet File available on optical disk or CD ROM.	800-638-6660 800-223-8978 800-445-6737
